Pickleball is a growing sports phenomenon across North America. Disney has just announced that it is building Pickleball courts as part of its ESPN Wild World of Sports Complex in Orlando.

The game is easy to learn, FUN to play and a lifetime sport. It's social – players really get to interact, laugh and have FUN. It's competitive too, with a growing number of sanctioned tournaments and prize money for Open medalists at the **USA Pickleball Association (USAPA)** National Tournament.

Place your bets on who might win the Arnold Pickleball Challenge next year!  
*The Body Builders? The Table Tennis players? You?*

**Checkout PICKLEBALL this week and try it for yourself.**  
***It might just make you happy too!***
